

Automatic Inner Ear Loop Welding Machine

KP-1003

Performance Characteristics

- This machine is semi Automatic machine, in which required to place mask manually in the conveyor belt tray. The elastic ends of face masks will Automatically weld and cut.

Equipped with

- Touch screen PLC, High frequency and best quality Ultrasonic component, standard quality Pneumatic (AirTech), which gives long life and best performance.

Main Technical Parameters

Power Supply	Power	Speed	Dimension	Weight
AC220V 50HZ	5 KW	35-50Pcs /min*	1915*855*1780mm	530kg*
