

Automatic Doctor Cap Making Machine

KP-1005

Performance Characteristics

- Doctor cap machine adopt advanced ultrasonic welding system for non woven doctor cap. it is fully Automatic production line from raw material supplying to finished product output. it is equipped with PLC control system. the stability is high, the failure is low. imported brake motor effectively reduced the defect rate of production. This machine equipped with Aluminum alloy rack the appearance is beautiful and will not get rusted permanently. by replacing the Mold it can produce the different types of doctor caps. like single side elastic, Both side elastic, Both side tie and little elastic behind the cap.

Application

- Hospital
- Laboratories

Main Technical Parameters

Power Supply	Power	Designed Speed	Optimum Speed	Dimension (in mm)	Weight
220V 50HZ	5 KW	120 Pcs / min	60-100 Pcs / min	5000L X 1000W X 1550H mm	1000kg*
