

Automatic Non Woven Shoe Cover Machine

KP-1006

Performance Characteristics

- The Machine specialized in producing disposable non woven shoe cover. It does automatic production from material to final products. It adopt advanced man-machine interface Best Quality PLC program, photo electric detection sensor. The raw material non woven adopts adjustable ultrasonic and controllable electric welding combination. The both sides of shoe cover elastic are reinforced weld with Ultrasonic system .

Application

- Laboratories and Hospital
- Food Manufacturing co.
- Pharmaceutical co.

Main Technical Parameters

Power Supply	Power	Designed Speed	Optimum Speed	Dimension (in mm)	Weight
AC 220V	4 KW	120 Pcs / min	60-100 Pcs /min	2000*1825*1700mm	650kg*
