

## Butterfly Mask Making Machine

### KP-1008

### Performance Characteristics

- This machine is Automatic Butterfly mask making machine. It can make different size and shape of mask .it is equipped with best quality ultrasonic component, stepper motor, Touch screen PLC and sensor .This machine is suitable to make 2ply to 5ply mask, in single process (including: blank body making, Nose strip welding, mask folding, and mask side welding (Elastic will be weld by separate machine).It increase production 4 time upper, Reduce wastage , labor with better finishing than manual machine.

### Main Technical Parameters

Power Supply	Power	Designed Speed	Optimum Speed	Main Machine	Conveyor Belt	Weight
AC220V	7.7 KW	80 Pcs / min	20-60 Pcs / min	2200*2100*1500mm	1770*330*900mm	800kg*
