

Automatic N95 mask forming machine

KP-1401

Performance Characteristics

- This Machine is Automatic N95 mask Forming machine, It is equipped with Upgraded technology, Touch screen PLC, High Frequency Ultrasonic, and labor saving machine. Two process “mask Forming and cutting” done through single machine. different size and shape of N95 mask can be made by replacing mold.

Main Technical Parameters

Power Supply	Power	Production Speed	Air Pressure	Main Machine	Weight
AC220V	5 Kw.	20-35 Pcs./min	6 Kg.	3500*1500*1800*	820kg*
