

Mask ear loop and nose clip welding machine

KP-1402

Performance Characteristics

- This Machine is Automatic N95 Mask Ear loop and Nose clip welding machine. It is equipped with upgraded technology, Equiped with Touch screen PLC, High frequency Ultrasonic component, It is labor saving machine. Two process, Ear Loop welding and Nose clip welding done through Single machine.

Main Technical Parameters

| Power Supply | Power | Production Speed | Air Pressure | Main Machine | Weight |
|--------------|--------|------------------|--------------|-------------------|--------|
| AC220V | 3.5 Kw | 40-50 Pcs./min | 5Kg. | 3200*1200*1750*mm | 900kg* |
