

Non Woven Cup Mask Welding Machine

Performance Characteristics

- This machine Manually welds Elastic Ear loop and Mask Side welding by changing mold. according to the different face mask, make the different positioning weld, weld accurately, no error, Easy to operate, no noise, compact and small machine, attractive appearance, does not occupy much space.

Main Technical Parameters

Power Supply	Designed Speed	Output frequency	Mold Size	Dimension (in mm)	Weight
220V/50KHz	10-25 Punch / min	18 KHZ	100-200 mm	1300*650*1500mm	100Kg.*
